

## Zadanie 5: Testy jednostkowe

Wykonawcy: Artur Górak i Szymon Dziedzic

Do realizacji tego zadania wykorzystaliśmy framework do JavaScript o nazwie Jest.

Testy do klasy Country:

```
let Country = require('./Country');

test('Country test', () => {
  let date1 = new Date('2021-01-01');
  let date2 = new Date('2021-01-02');
  let country = new Country();
  expect(country.getDataInGivenTimePeriod(date1, date2)).not.toBeNull();
});
```

Testy do klasy CountryDetail:

```
const CountryDetail = require('./CountryDetail');

test('CountryDetail setDates test1', () => {
  let cd = new CountryDetail();
  const date = new Date('2021-01-01');
  const date2 = new Date('2021-01-02');
  cd.setDates(date, date2);
  expect(cd.startDate).toBe(date);
});

test('CountryDetail setDates test1', () => {
  let cd = new CountryDetail();
  const date = new Date('2021-01-01');
  const date2 = new Date('2021-01-02');
  cd.setDates(date, date2);
  expect(cd.endDate).toBe(date);
});

test('CountryDetail enddate higher than startdate test', () => {
  let cd = new CountryDetail();
  const date = new Date('2021-01-02');
  const date2 = new Date('2021-01-01');
  cd.setDates(date, date2);
  expect(cd.date < cd.date2).toBeTruthy();
});
```

Testy do klasy Database:

```
const Database = require('./Database');

test('Database fetchData test', () => {
  let database = new Database();
  let data = database.fetchData();
  console.log(data);
  expect(data).not.toBe(null);
});
```

Testy do klasy Plot:

```
let Plot = require('./Plot');

test('Plot setCountry test', () => {
  let plot = new Plot();
  plot.setCountry('Poland');
  expect(plot.country).toBe('Poland');
});

test('Plot setStartDate test', () => {
  let plot = new Plot();
  const date = new Date();
  plot.setStartDate(date);
  expect(plot.startDate).toBe(date);
});

test('Plot setEndDate test', () => {
  let plot = new Plot();
  const date = new Date();
  plot.setEndDate(date);
  expect(plot.endDate).toBe(date);
});

test('Plot setData test', () => {
  let plot = new Plot();
  const data = {
    test: 'abc',
  };
  plot.setData(data);
  expect(plot.data).toBe(data);
});
```

Testy do klasy User:

```
let User = require('./User');

test('User setBiggerFontSize test', () => {
  let user = new User();
  user.setBiggerFontSize(true);
  expect(user.biggerFontSize).toBe(true);
});
```

---

Póki co nie mamy jeszcze napisanego programu (tylko puste klasy), więc nasz program nie zdał żadnego testu

```
Test Suites: 5 failed, 5 total
Tests:       10 failed, 10 total
Snapshots:   0 total
```
